*Attractive Thinking* Chris Radford 2019-11-01 Forget everything you've been told about maximizing Lifetime Customer Value. To take your business to the next level, you need a brand strategy that's focused on attracting new customers, not exploiting existing ones. In this transparent digital age, smart business leaders know that profitable growth comes from helping customers, not exploiting them. *Attractive Thinking* sets out a ground-breaking methodology, developed during 30 years' experience transforming brands for Pepsi, Mars, Miracle Gro and many high-end service businesses, to achieve exactly that. Discover the five key questions you must answer to create a better brand strategy and the tools to deliver it: clarity on what matters to customers; products and services that customers love; marketing that attracts them; and a team that is committed to delivering it. *Attractive Thinking* is a practical handbook for CEOs, managing directors and marketers who want to make the big-brand techniques work for them.

**Ghost Channels** Amy Lawrence 2022-03-08 Through American history, often in times of crisis, there have been periodic outbreaks of obsession with the paranormal. Between 2004 and 2019, over six dozen documentary-style series dealing with paranormal subject matter premiered on television in the United

States. Combining the stylistic traits of horror with earnest accounts of what are claimed to be actual events, "paranormal reality" incorporates subject matter formerly characterized as occult or supernatural into the established category of reality TV. Despite the high number of programs and their evident popularity, paranormal reality television has to date received little critical attention. *Ghost Channels: Paranormal Reality Television and the Haunting of Twenty-First-Century America* provides an overview of the paranormal reality television genre, its development, and its place in television history. Conducting in-depth analyses of over thirty paranormal television series, including such shows as *Ghost Hunters*, *Celebrity Ghost Stories*, and *Long Island Medium*, author Amy Lawrence suggests these programs reveal much about Americans' contemporary fears. Through her close readings, Lawrence asks, "What are these shows trying to tell us?" and "What do they communicate about contemporary culture if we take them seriously and watch them closely?" Ridiculed by nearly everyone, paranormal reality TV shows—with their psychics, ghost hunters, and haunted houses—provide unique insights into contemporary American culture. Half-horror, half-documentary realism, these shows expose deep-seated questions about class, race, gender, the value of technology, the failure of institutions, and what it means to be American in the twenty-first century.

**Lake Monster Mysteries** Benjamin Radford 2006-05-05 Winner of the 2007 Gray's Lake FCBC Book Award For centuries, eyewitnesses around the world—from America to Africa, Argentina to Scotland—have reported sightings of dark, mysterious creatures in area lakes that surface briefly, only to quickly disappear. While the most famous lake monsters of Loch Ness and Lake Champlain have gained international notoriety, hundreds of lakes around the world are said to shelter these shadowy creatures. *Lake Monster Mysteries* is the first book to examine these widespread mysteries from a scientific perspective. By using exhaustive research and results from firsthand investigations to help separate truth from myth, the authors foster our understanding of what really lurks in the cold, murky depths. Benjamin Radford and Joe Nickell are considered to be among the top lake monster authorities in the world. Here they share unique insights into many of the world's best-known lake monsters. They interview witnesses and local experts and discuss the different types of lake monster sightings, delve into possible explanations for those sightings, and examine hoaxes, evidence claims, and legends surrounding the monsters. The authors have also conducted groundbreaking fieldwork and experiments at the lakes and have examined recent photographic and sonar evidence. Incorporating newly-revealed information and up-to-date developments in the cases they present, professional monster hunters Radford and Nickell plunge into both the cultural histories of these creatures and the scientific inquiries that may hold the key to these mysteries.

*Multicultural Reader* uses essays written by today's most respected feminist voices to examine the impact of contemporary feminism on the practice and study of religion. Many in the field have expressed the need for a reader that is both accessible to undergraduates who have little background in the study of religion and that shows the transforming impact of feminism on the religious lives of American women. This book meets that need.

*A Conservative Christian Reviews the Greatest Movies Ever Made* George McManus 2003-07

*250 Classic Movies* George McManus 2013-08 *250 Classic Movies* brings to the attention of movie fans, and hopefully new fans of older films, motion pictures that are well worth seeing, time and again. Actually, the really good movies never get old. The first time you see a classic film you might watch it for pure entertainment value. The second time might engross you more in the story. The acting might enthrall you more in the third viewing. And the fourth time? The cinematography, the costumes, the make-up, the sets, or the character players, some in the background (and in musicals, the individual dances), all may suddenly capture your imagination. That's the good thing about the classics—they don't get old because there is so much to behold it's almost impossible to truly see it all the first time around. For this book, the author has selected 250 films that have been acclaimed by critics and/or have been box-office winners or chosen as award-winners by various organizations. Are they the greatest movies ever made? Not necessarily, but they certainly are among the best. To add to the full enjoyment of each film, there are data, awards, trivia, a review, back-stories, posters and photographs-including stills and candid. The book covers twenty categories of filmmaking including foreign films. Represented are famous films from England, Italy, France, Germany, Japan, Sweden, Australia, and Russia. While this book is intended as an overview of the great movies of the first century of filmmaking, we hope it serves as an inspiration to readers to look at other movies of the first hundred years because, after all, in the Golden Age of Hollywood studios were making 700 films a year! So we have a lot to look forward to in our research into the great Classic Movies. George McManus spent 40 years as a broadcast journalist, most of it in California, where he covered the Academy Awards backstage. His time in radio/TV also provided him the opportunity to interview, at length, dozens of filmmakers, often while they were on a book or movie promotion tour. These experiences not only inspired this book, but also enhanced the author's knowledge/appreciation of the films that grace these pages. Mr. McManus lives with his wife and their children in Northern California. He hosts *The Midnight Movie* on the local community access channel.

**The Political Mel Brooks** Samuel Boerboom 2019-06-07 *The Political Mel Brooks* analyzes the work of Mel Brooks as political and social commentary. It demonstrates that Brooks is a serious, political filmmaker whose comedies go beyond goofy parody, attending to serious socio-political issues through a humorous lens.

*An Epidemic of Rumors* Jon D. Lee 2014-03-15 In *An Epidemic of Rumors*, Jon D. Lee examines the human response to epidemics through the lens of the 2003 SARS epidemic. Societies usually respond to the eruption of disease by constructing stories, jokes, conspiracy theories, legends, and rumors, but these narratives are often more damaging than the diseases they reference. The information disseminated through them is often inaccurate, incorporating xenophobic explanations of the disease's origins and questionable medical information about potential cures and treatment. Folklore studies brings important and useful perspectives to understanding cultural responses to the outbreak of disease. Through this etiological study Lee shows the similarities between the narratives of the SARS outbreak and the narratives of other contemporary disease outbreaks like AIDS and the H1N1 virus. His analysis suggests that these disease narratives do not spring up with new outbreaks or diseases but are in continuous circulation and are recycled opportunistically. Lee also explores whether this predictability of vernacular disease narratives

presents the opportunity to create counter-narratives released systematically from the government or medical science to stymie the negative effects of the fearful rumors that so often inflame humanity. With potential for practical application to public health and health policy, *An Epidemic of Rumors* will be of interest to students and scholars of health, medicine, and folklore.

Animators of Film and Television Noell K. Wolfgram Evans 2011-04-26 In the words of Walt Disney, "Animation can explain whatever the mind of man can conceive." Part biography, part history, part artistic commentary, this volume looks at major figures in the field of animation and discusses how their contributions have affected the course of the industry--and, in many cases, popular culture as a whole. These gifted artists are divided into several classifications: Idealists (Art Babbitt, John Hubley); Mavericks (John Kricfalusi, Terry Gilliam); Technicians (Max and Dave Fleischer); Influencers (Frank Tashlin, Matt Groening, Ray Harryhausen, Ed Benedict); Trailblazers (Lotte Rieniger, Lillian Friedman); Teller of Tales (Henry Selick); Teachers (George Newall, Tom Yohe, the FMPU); and Storytellers (Joe Grant, Bill Scott, Michael Maltese). A selective list of each animator's key films and awards is included.
