Learning in the Fast Lane Suzy Pepper Rollins 2014-04-10 Too often, students who fail a grade or a course receive remediation that ends up widening rather than closing achievement gaps. According to veteran classroom teacher and educational consultant Suzy Pepper Rollins, the true answer to supporting struggling students lies in acceleration. In *Learning in the Fast Lane*, she lays out a plan of action that teachers can use to immediately move underperforming students in the right direction and differentiate instruction for all learners—even those who excel academically. This essential guide identifies eight high-impact, research-based instructional approaches that will help you * Make standards and learning goals explicit to students. * Increase students' vocabulary—a key to their academic success. * Build students' motivation and self-efficacy so that they become active, optimistic participants in class. * Provide rich, timely feedback that enables students to improve when it counts. * Address skill and knowledge gaps within the context of new learning. Students deserve no less than the most effective strategies available. These hands-on, ready-to-implement practices will enable you to provide all students with compelling, rigorous, and engaging learning experiences.

Productive Group Work Nancy Frey 2009 Find out how matching research-based principles of collaborative learning with practical action can make all group work productive group work, with all students engaged.

Holocaust Imperial War Museum 2021-10-14 A reexamination of the narrative of genocide. Personal stories help audiences consider the cause, course, and consequences of this seminal period in world history. In *Holocaust*, historian James Bulgin presents a wealth of archival material—including emotive objects, newly commissioned photography, and previously unpublished personal testimony from those who were there—to examine the role of ideology and individual decision-making in the course of World War II and the Holocaust. The book is published to coincide with the opening of Imperial War Museum's groundbreaking new Second World War and Holocaust Galleries.

Understanding and Teaching the Holocaust Laura Hilton 2020-07-21 Few topics in modern history draw the attention that the Holocaust does. The Shoah has become synonymous with unspeakable atrocity and unbearable suffering. Yet it has also been used to teach tolerance, empathy, resistance, and hope. *Understanding and Teaching the Holocaust* provides a starting point for teachers in many disciplines to illuminate this crucial event in world history for students. Using a vast array of source materials—from literature and film to survivor testimonies and interviews—the contributors demonstrate how to guide students through these sensitive and painful subjects within their specific historical and social contexts. Each chapter provides pedagogical case studies for teaching content such as antisemitism, resistance and rescue, and the postwar lives of displaced persons. It will transform how students learn about the Holocaust and the circumstances surrounding it.

Spectrum Language Arts, Grade 8 2014-08-15 An understanding of language arts concepts is key to strong communication skills—the foundation of success across disciplines. *Spectrum Language Arts* for grade 8 provides focused practice and creative activities to help your child master sentence types,

grammar, parts of speech, and vocabulary. This comprehensive workbook doesn't stop with focused practice—it encourages children to explore their creative sides by challenging them with thought-provoking writing projects. Aligned to current state standards, *Spectrum Language Arts* for grade 8 includes an answer key and a supplemental *Writer's Guide* to reinforce grammar and language arts concepts. With the help of *Spectrum*, your child will build the language arts skills necessary for a lifetime of success.

Lest We Forget Debbie J Callahan M S Ed 2014-07-19 First-hand witnesses to one of the worst events in recent history will soon be a thing of the past. With many Holocaust survivors passing away each day, it won't be long before we must rely on textbooks and second-generation testimony to learn of the atrocities that they experienced during the reign of Adolf Hitler and the Nazi party. For a while longer, though, we still have this valuable resource, and many continue to share their stories with one audience after another, despite the pain of reliving the horrific events that we cannot even begin to imagine. They do this to speak for those who cannot and to share the many valuable lessons that should be learned from the Holocaust, so such atrocities can never happen again. The intent of this book is not to share the harrowing and descriptive personal stories of suffering, but rather to share strong messages and warnings from survivors for a better future. While some of their stories are alluded to or briefly mentioned, the focus of this book is on the lessons they can teach us as a result of their strength and resiliency. Read and share their messages, and keep their vision to end intolerance, racism, and hatred in this and future generations.

Defining Lessons Rona Sheramy 2001 This thesis conducts an in-depth historical inquiry into the study and teaching of the Holocaust in American Jewish primary and secondary schools, summer camps, and youth groups.

Knowing History in Schools Arthur Chapman 2021-01-07 The 'knowledge turn' in curriculum studies has drawn attention to the central role that knowledge of the disciplines plays in education, and to the need for new thinking about how we understand knowledge and knowledge-building. *Knowing History in Schools* explores these issues in the context of teaching and learning history through a dialogue between the eminent sociologist of curriculum Michael Young, and leading figures in history education research and practice from a range of traditions and contexts. With a focus on Young's 'powerful knowledge' theorisation of the curriculum, and on his more recent articulations of the 'powers' of knowledge, this dialogue explores the many complexities posed for history education by the challenge of building children's historical knowledge and understanding. The book builds towards a clarification of how we can best conceptualise knowledge-building in history education. Crucially, it aims to help history education students, history teachers, teacher educators and history curriculum designers navigate the challenges that knowledge-building processes pose for learning history in schools.

Cross-Curricular Teaching and Learning in the Secondary School... Humanities Richard Harris 2013-03 What is the role of the humanities in the modern school? Should geography, history, RE and Citizenship teachers remain faithful to long-standing subject cultures and pedagogies? Or is there another way to consider how the curriculum, and the notion of individual subjects and teachers' pedagogy, could be constructed? Drawing on case studies taken from a range of innovative secondary schools, and

interrogating the use of cross-curricular approaches in UK schools, Cross-Curricular Teaching and Learning in Humanities constructs a research based pedagogy with practical steps for students and teachers as they consider how cross-curricular approaches can be implemented in their own subject areas. Key features include: Clear theoretical frameworks for cross-curricular processes of teaching and learning in the humanities Lively and engaging text that blends key issues with stories of current practice An analysis of the use of assessment, enquiry, and pupil talk as key components in building a cross-curricular approach to the humanities Practical and reflective tasks that enable to reader to apply their reading to day to day practice, alongside links to professional standards Summaries of key research linked to suggestions for further reading Professional development activities to promote cross-curricular dialogue Part of the Cross-Curricular Teaching and Learning in the Secondary School series, this timely interdisciplinary textbook is essential reading for all students on Initial Teacher Training courses and practising teachers looking to holistically introduce cross-curricular themes and practices in secondary Humanities teaching.

Enacting History Mira Hirsch 2020-06-15 Enacting History is a practical guide for educators that provides methodologies and resources for teaching the Holocaust through a variety of theatrical means, including scripted texts, verbatim testimony, devised theater techniques and process-oriented creative exercises. A close collaboration with the USC Shoah Foundation I Witness program and the National Jewish Theater Foundation Holocaust Theater International Initiative at the University of Miami Miller Center for Contemporary Judaic Studies resulted in the ground-breaking work within this volume. The material facilitates teaching the Holocaust in a way that directly connects students to individual people and historical events through the art of theater. Each section is designed to help middle and high school educators meet curricular goals, objectives and standards and to integrate other educational disciplines based upon best practices. Students will gain both intellectual and emotional understanding by speaking the words of survivors, as well as young characters in scripted scenes, and developing their own performances based on historical primary sources. This book is an innovative and invaluable resource for teachers and students of the Holocaust; it is an exemplary account of how the power of theater can be harnessed within the classroom setting to encourage a deeper understanding of this defining event in history.

Teaching about the Holocaust in English Secondary Schools Alice Pettigrew 2009 The ground-breaking report Teaching About the Holocaust in English Secondary Schools: An empirical study of national trends, perspectives and practice explores when, where, how and why the Holocaust is taught in state-maintained secondary schools in England. The challenges and issues identified have been used to design and develop the world's first research-informed programme of teacher professional development in Holocaust education. The landmark national research that underpins this report employed a two-phase mixed methodology. This comprised an online survey which was completed by more than 2,000 respondents and follow-up interviews with 68 teachers in 24 different schools throughout England. The report is the largest endeavour of its kind in the United Kingdom in both scope and scale. The authors hope it will be of considerable value to all those concerned with the advancement and understanding of Holocaust education both in the UK and internationally.

How Students Learn National Research Council 2005-01-28 How Students Learn: Science in the Classroom builds on the discoveries detailed in the best-selling How People Learn. Now these findings are presented in a way that teachers can use immediately, to revitalize their work in the classroom for even greater effectiveness. Organized for utility, the book explores how the principles of learning can be applied in science at three levels: elementary, middle, and high school. Leading educators explain in detail how they developed successful curricula and teaching approaches, presenting strategies that serve as models for curriculum development and classroom instruction. Their recounting of personal teaching experiences

lends strength and warmth to this volume. This book discusses how to build straightforward science experiments into true understanding of scientific principles. It also features illustrated suggestions for classroom activities.

Hiroshima Laurence Yep 1995 On the morning of August 6, 1945, an American bomber, the Enola Gay, roars down the runway of the Pacific island, Tinian. Its target is Hiroshima, Japan. Its cargo is an atom bomb. The same morning, twelve-year-old Sachi and her classmates tear down houses. It is their way of contributing to the war effort. Suddenly, a teacher yells "B-29! B-29!" There is a blinding light like the sun, a boom like a giant drum. The Enola Gay has dropped an atom bomb over Hiroshima. Will Sachi ever see her family again? Book jacket.

Guidelines for Teaching about the Holocaust United States Holocaust Memorial Museum 1993 This pamphlet is intended to assist educators who are preparing to teach Holocaust studies and related subjects.

Holocaust Education Stuart Foster 2020-07-06 Teaching and learning about the Holocaust is central to school curriculums in many parts of the world. As a field for discourse and a body of practice, it is rich, multidimensional and innovative. But the history of the Holocaust is complex and challenging, and can render teaching it a complex and daunting area of work. Drawing on landmark research into teaching practices and students' knowledge in English secondary schools, Holocaust Education: Contemporary challenges and controversies provides important knowledge about and insights into classroom teaching and learning. It sheds light on key challenges in Holocaust education, including the impact of misconceptions and misinformation, the dilemmas of using atrocity images in the classroom, and teaching in ethnically diverse environments. Overviews of the most significant debates in Holocaust education provide wider context for the classroom evidence, and contribute to a book that will act as a guide through some of the most vexed areas of Holocaust pedagogy for teachers, teacher educators, researchers and policymakers.

Understanding the Holocaust Betty Merti 1995 Understanding the Holocaust traces the Nazi genocides of World War II through a variety of means: descriptive passages, first-person narratives, maps, charts, and a variety of activities. A compelling, valuable text that will answer many questions for your students.

Lessons and Legacies XII Wendy Lower 2017-02-15 Lessons and Legacies XII explores new directions in research and teaching in the field of Holocaust studies. The essays in this volume present the most cutting-edge methods and topics shaping Holocaust studies today, from a variety of disciplines: forensics, environmental history, cultural studies, religious studies, labor history, film studies, history of medicine, sociology, pedagogy, and public history. This rich compendium reveals how far Holocaust studies have reached into cultural studies, perpetrator history, and comparative genocide history. Scholars, laypersons, teachers, and the myriad organizations devoted to Holocaust memorialization and education will find these essays useful and illuminating.

Teaching the Holocaust Michael Gray 2015-05-15 Teaching the Holocaust is an important but often challenging task for those involved in modern Holocaust education. What content should be included and what should be left out? How can film and literature be integrated into the curriculum? What is the best way to respond to students who resist the idea of learning about it? This book, drawing upon the latest research in the field, offers practical help and advice on delivering inclusive and engaging lessons along with guidance on how to navigate through the many controversies and considerations when planning, preparing, and delivering Holocaust education. Whether teaching the subject in History, Religious Education, English or even in a school assembly, there is a wealth of wisdom which will make the task easier for you and make the learning experience more beneficial for the student. Chapters include: The aims of Holocaust education Ethical issues to consider when teaching the Holocaust Using film and documentaries in the classroom Teaching the Holocaust through literature The role of online learning and social media The benefits and practicalities of visiting memorial sites With lesson plans, resources, and schemes of work which can be used across a range of different subjects, this book is essential reading for those that want to deepen their understanding and deliver effective, thought-provoking Holocaust education.

Teaching about the Holocaust in the 21st Century Jean-Michel Lecomte 2001 Given the rise of anti-Semitism in parts of Europe, the accessibility of "denial" Internet sites and the isolationist stand taken by certain European political leaders today, Holocaust teaching was given an important place in Council of Europe's project. Although some countries have high standards for Holocaust teaching, others are lacking in material. Teachers often do not have in-depth knowledge of the subject and, unless they are in a position to carry out personal research, do not know how to approach a topic much too vast to be categorised simply as "history".
