Agatha H. and the Siege of Mechanicsburg Phil Foglio 2020-03-17 In a time when the Industrial Revolution has become an all-out war, mad science rules the world—with mixed success. In *Agatha H and the Siege of Mechanicsburg*, Agatha Heterodyne, the last of the Heterodyne family, has returned to her family's hereditary town with the might of the Wulfenbach Empire hot on her heels. The only thing holding off an outright attack is Gilgamesh Wulfenbach, the heir to the Empire, who has joined Agatha and her friends inside the great artificially intelligent fortress of Castle Heterodyne. Now they must race to repair the mechanisms that once allowed the Castle to defend Mechanicsburg, before the rest of Europa shows up to take all the revenge the mad Heterodynes of the past so richly earned. From

the Hugo Award-winning Girl Genius online comics comes this fourth book in the Agatha H. series, and like the previous three books, it will engage you in a unique world of adventure, romance, and mad science!

'A Miracle of Learning' Dáibhí Ó Cróinín
2016-12-05 This volume celebrates the work of William O'Sullivan, the first keeper of manuscripts at Trinity College, Dublin, who preserved, made more accessible and elucidated the documents in his care. The manuscripts throw new light on the society of Ireland, the place of the learned and literate in that world, and its relations with Britain, Europe and America. Some of these essays clarify technical problems in the making of famous manuscripts, and bring out for the first time their indebtedness to or influence over other manuscripts. Others provide unexpected new information about the reigns of Edward I and James I, Irish provincial society, the process and progress of religious change and the links between settlements in Ireland and North American colonization.

A Medieval Book of Beasts Pierre (de Beauvais) 1992 This is an English translation of the short version of the French Bestiary of Pierre de Beauvais. The original text, the Physiologus was probably written during the 2nd century, in Greek, then translated to Latin, and then translated into Old French by de Beauvais. These are stories of animals given as symbols of Man's eternal fears and hopes. This bestiary can be used as a means of understanding the thought processes of people in the Middle Ages.
